HOW TO GET TO OUR OFFICE?

We are half way between the airport and centre of Brussels, in a district called Woluwé Saint Lambert, off junction 19 of the E40 motorway, in front of the supermarket CORA.

If you use a taxi

Most taxis know where Gulledele is. If they do not then we are in front of the "Cora" supermarket in a part of Brussels called Woluwé-St. Lambert.

If you use public transport

Catch the bus at Schuman metro station. The buses are sign posted inside the metro stations. You want to take the bus number 79 in the direction of Kraainem. It takes around 10 minutes. At the bus stop "Deux Maisons – Twee Huizen" (after "Capricorne - Steenbok") get off the bus, walk back 100 m, cross the road, go through some bollards and our office is one of the blocks in front of you.

If you come by car

From Brussels:

Take the E40 motorway out of Brussels in the direction of Luik/Liege - we are the first junction. At the top of the slip road turn right. Straight through the traffic lights. At the roundabout take the last exit into the supermarket CORA (at about 320 degrees). Park in CORA parking. Up the escalators in front of the supermarket there is a walkway to the street. Cross the road at the lights and Gulledele is straight in front. Our building is on the third turning to the right. The walking distance is 100 metres.

From elsewhere:

From the ring of Brussels take the exit for the E40 motorway signed Brussel/Bruxelles and Luik/Liege. Follow signs for Brussels, Go up two junctions, take exit 19 direction Woluwe and Evere. At top of the slip road turn left. Go through two sets of lights and you are at the roundabout again.
